PRODUCT DECK · 2026

The gym, on autopilot.

Everything a gym runs on, in one fast app: members, plans, invoices, check-ins, a website, WhatsApp and a member app.

THE PROBLEM

Most gyms still run on paper, Excel and memory

Owners lose money and hours every week to work a computer should do.

Chasing fees

Reminding members one by one on WhatsApp, and forgetting some.

Paper registers

No idea who actually trains, who stopped coming or when a plan ends.

Cash leaks

Payments recorded in notebooks; no clear month-end profit.

No online presence

No website with prices and timings, so new members go elsewhere.

Paper register

Who came today? Nobody knows.

Excel sheet

Out of date the moment it is saved.

WhatsApp chases

"Bhai, fee kab doge?" every month.

Cash notebook

Where did this month's money go?

One platform for the whole gym

**Owner dashboard**
Members, money in and out, unpaid invoices, today's check-ins.

**Front desk**
Add members with a camera photo, start plans, record payments.

**Trainers**
See their assigned members and who has stopped showing up.

**Member app**
Check in, track training, see invoices and how to pay.

FOR MEMBERS

A member app they **actually** open

Members check in from their phone and watch their training add up.

One-tap check-in

Check in and out as often as they like, with a live stopwatch.

Streaks

Day streak, visits this month and average visit length.

Invoices

Every invoice, its status and how to pay, as a PDF.

Easy sign-in

Password or a one-tap email link; no app store needed.

MOTIVATION

A year of training in one heatmap

Every visit lights up a square; several visits a day add up.
Darker squares mean more time trained.

Full width

Up to a year of weeks, with month and weekday labels.

Hover any day

See the date and exactly how long they trained.

For the desk too

Staff see each member's attendance grid on their profile.

Your activity

12-day streak · 18 visits this month

PROGRESS PHOTOS

A private gallery for every member

Gym selfies and progress pictures, kept safe and only visible to the member.

Camera or upload

Many photos at once, resized on the phone before upload.

Rearrange

Drag to reorder, add captions, view full screen.

Download

One photo, a selection, or the whole album as a .zip.

Private

Stored securely; nobody else, not even staff, can see them.
